

Allegro's Dance Class Explanation

Ballet: Ballet is the expression of classical art that provides strength, beauty, posture and grace. An important foundation for all dancers
*Pointe: Evaluation will be during the first few weeks (must also take ballet). It is important to keep enhancing proper technique to prevent injuries. (With instructor permission)
Lyrical/Contemporary: Combines ballet and jazz concepts that are expressive through fluidity, emotion & breath. Ballet is highly recommended to be taken at the same time.
Jazz: An upbeat, fast paced style of dance that has evolved from a melting pot of styles and choreographers over the years. Style, strength and technique are stressed.
Tap: Based on American tap dancing style, with the feet as an instrument. Rhythm, syncopation and timing are stressed as well as proper technique.
Drama: This class offers a fun approach to theater through imagination, improvisation and presentation. Also a focus on stage presence and blocking. Strong reading skills suggested.
Musical Theater: Combines all aspects of dance, voice and dramatic arts, as well as history and character development. We will explore the history of musical theater, film & modern musicals.
Hip Hop: Hip hop dance refers to social or choreographed dance styles primarily danced to hip hop music or that have evolved as part of hip hop culture. This includes a wide range of styles notably breaking, locking & popping which were developed in the 1970's.
*Stretch & Strength: An injury prevention class that also helps with flexibility and endurance. Your own dyna-band and tennis ball is required for this class.
Tumbling/conditioning A gymnastics based class that works on strengthening & flexibility. Fun tumbling moves & skills will be taught by progression in a non-competitive manner.
