

Allegro Processes for Phase 2

Allegro is committed to the safety of all of our dancers, families and staff.

Below is a list of our current processes for Phase 2.

[PLEASE ALSO WATCH THIS VIDEO](#)

1. Classes limited to 5 students in a group under phase 2 guidelines
2. Class times are staggered to avoid lines and crowds in our hallways
3. Dancers with multiple classes in a row will most likely stay in the same room and the teachers will be rotating rooms instead
4. Regular cleaning with disinfectant products throughout the studio
5. Fresh air vents in some studios and Medical grade H13 air purifiers in others
6. Floor markers to keep dancers spaced out more than 6 feet apart
7. Each room has cleaning products and sanitizer available
8. Water fountain, chairs, vending machines and student lounges are off limits
9. Floors have been coated with BIOPROTECT solution that continues killing germs
10. Anyone high risk or showing symptoms needs to stay home and zoom instead
11. Anyone that has recently travelled to a hot spot needs to avoid coming back to the studio for two weeks OR unless they get a COVID negative test result back

12. A new release form must be signed and turned in before entering the studio
13. Dancers will wear masks to the studio and have their temperature taken at the door
14. Dancers will not have access to change into different dance clothes often due to limited space in the restrooms
15. Small, non-messy snacks are ok to bring in the dance bag to eat in between classes
16. Only 1 parent per youth dancer is allowed inside. They will be screened, need to wear their mask and sit in a designated area
17. Parents of JR or SR dancers should wait in the parking lot at least until their dancer has been screened.
18. Enter the studio in the single door and exit out the double doors
19. Only one person allowed in the restroom at a time
20. MASKS

The CDC & WHO still state that they do not recommend exercising in masks. At Allegro, Masks are still optional for dancing in, although you do need one to come in the building and when in the hallways. However, there are many doctors that recommend that it can be done for some dancers and we are encouraging dancers to decide if they want to try... it will take some practice.

We want you to find one that feels comfortable to you, that you will not touch while dancing and fits well.

For those dancers that have multiple classes in a row, bring one for each class and make sure they are washed (or disposed of) afterwards.

These types of masks are recommended:

- *One that holds its shape well
- *Triple layer cotton masks
- *Duck Bill masks
- *Cup Masks

*NOT N95 & not the thin blue medical masks

*Those with medical concerns can choose wear face shields instead

WE WILL CONTINUE TO ADAPT AS WE LEARN MORE BUT WE PROMISE TO
KEEP YOU INFORMED AND TO KEEP YOU SAFE!
